Behavioral Report

Ugochukwu is a very conscientious person, particularly attentive to, careful of, and accurate with the details involved in the job. Identifies problems, and enjoys solving them, particularly within own area of expertise.

Reserved, serious, and always concerned with the exact correctness of the work. Self-discipline, sense of duty, and respect for authority and tradition are strong qualities in Ugochukwu, who takes responsibilities very seriously.

With experience and/or training, Ugochukwu will develop a high level of specialized expertise and efficiency. Disciplined and dedicated to the job and the company. Work pace is somewhat faster-than-average, and Ugochukwu is motivated by a real concern for getting work done on time and correctly. Discipline and circumspect thinking will lend caution to decision-making; plans ahead, double checks, and follows up carefully on decisions and actions.

A modest and unassuming person, works quite autonomously and decisively in their specialized area. When working outside of their expertise, they'll look to management, written resources, or subject-matter experts for direction. Most effective and productive when working within the field of own specialty and experience, and prefers to stick to the proven way. If it becomes necessary to initiate or adopt change, Ugochukwu will need to see cold, hard, evidence to prove that the new way is more efficient, yields high-quality results, and is complete. In addition, Ugochukwu will carefully plan the implementation to minimize problems and maximize results.

Social behavior is reserved and accommodating. Will express themselves sincerely and factually and is, in general, rather cautious and conservative in their style. Being very sensitive to criticism, they'll always try to make sure that the work is done right.
